

OVERCAST SOUND

...introspective compositions built from fragments of field recordings, oblique references to dub rhythms, and sweeping cinematic textures.

OVERCAST SOUND creates introspective compositions built from fragments of field recordings, oblique references to dub rhythms, and sweeping cinematic textures, resulting in a style uniquely their own. When combined with their evocative visuals, OVERCAST SOUND creates a compelling experience which explores ideas beyond musical pattern.

Through improvised performances, Michael Pettit and Jamie Drouin re-imagine their studio tracks in new and unexpected ways, creating a personal and intimate musical experience. Although not easily categorized, they succeed in engaging the listener, whether at home or on the dance floor.

Featured on the labels Entropy Records, basic_sounds, Silent Season, Untitled & After, and Rohs! Records.

Recent performances at MUTEK Festival, Biennial of the Americas, Decibel Festival, New Forms Festival, Soundwave Festival and venues in Germany.
